Road Safety in Best Hand

Introduction

RK Infrastructure stands as a leading force in the realm of engineering, dynamically shaping the landscapes of highway and urban infrastructure ecosystems. Renowned for its unwavering commitment to impeccable customer service, precise execution, and on-time delivery, RK Infrastructure is at the forefront of integrating state-of-the-art technology into its operations.

As an authorized 3M converter for the Road Safety division, RK Infrastructure embodies excellence in manufacturing and supplying a diverse array of road safety products. These encompass an extensive range, from signage and road marking solutions to metal beam crash barriers, bus shelters, and toll plaza fabrications.

Committed to delivering unparalleled products and services, RK Infrastructure operates with a seasoned team of professionals dedicated to providing superior customer service. Embracing cutting-edge technology stands as a cornerstone in ensuring the highest quality across all offerings. RK Infrastructure prides itself on its expertise, specializing in various domains including road safety and signage solutions sourced from 3M. This expertise extends to road studs, delineators, road marking, metal beam crash barriers, bus shelters, toll plaza fabrications, overhead gantries, and cantilever structures.

- **Segments We Cater To:**

National Highways, State Highways, Urban Roads, Railways, MIDC, Smart City initiatives, Townships, Airports, and various industrial sectors fall within the purview of our expertise.

RK Infrastructure remains dedicated to not just meeting but exceeding the expectations of its clients while contributing significantly to the advancement and safety of infrastructure across diverse sectors and domains.

Mission

- Introducing innovative solutions for sustainable development and growth, guided by ethical practices, while sharing technological advancements with communities.

Vision

- **Shaping the Future of Infrastructure:** Enriching the infrastructure ecosystem with smart, safe, and integrated solutions through design and construction.

Company Overview

Road Safety Product Range:

- Signage and Road Marking
- Metal Beam Crash Barriers
- Bus Shelters
- Toll Plaza Fabrications

Product Standards:

- Compliant with government quality standards (IRC 67-2012) and ASTM D-4956-09
- Varied sizes and reflective sheeting grades (Type III, IV, XI)

Commitment to Excellence:

- Dedicated team ensuring top-notch customer service
- Integration of cutting-edge technology for high-quality products

Expertise in:

- Road Safety & Signage (3M Make)
- Road Studs, Delineators (3M Make)
- Road Marking, Metal Beam Crash Barrier, Bus Shelters

Material Used:

- Exclusive use of 3M Type XI, IV, ECF materials for signage
- Reasons: Quality, brightness, high performance, durability, and cost-effectiveness

Design to Sign: Simplifying the Process

- We streamline the journey from design inception to signage implementation in five straightforward steps: Design, Print, Apply Overlay, Cut Out Signs, and Apply to Substrate—ensuring a seamless and efficient workflow for our clients.

Fabrication Services:

At RK Infrastructure, our Fabrication service excels in the manufacturing and fabrication of diverse structural steel and metalwork structures tailored to various project scopes. Our expertise spans across engineering, industrial, and structural fabrication.

Specializations Include:

- Toll Plaza Sheds
- Gantry
- Cantilever
- Fencing Solutions
- General Fabrication
- W Beam Crash Barriers

Our dedicated in-house production team has implemented effective practices resulting in remarkable enhancements in operational efficiencies, waste reduction, and increased factory productivity.

Highlighted Projects:

1. Airport Station Pune:

- Resurfacing of Runway and Allied Works Services
- Manufactured and deployed 45+ canopies at the location.

2. Pune Corporation Building:

- Designed, manufactured, and installed fencing around Pune Corporation.

3. Kirki Pune (Khadki):

- Provided parking sheds designed and deployed for the Army division.

Ongoing Project:

Engaged in the fabrication work for the Satana-Pimpalner Road Toll Plaza, ensuring precision and quality in every aspect.

RK Infrastructure's Fabrication Service stands as a testament to our commitment to delivering high-quality, customized solutions across diverse fabrication needs while ensuring excellence in every project undertaken.

Road Signages & Safety Products:

- Cautionary / Warning Sign Boards
- Mandatory / Regulatory Sign Boards
- Facility Information Sign Boards
- Information Direction Sign Boards
- Overhead Gantry Sign Boards
- Overhead Cantilever Sign Boards
- Construction Work Zone Road Sign Boards
- Road Studs (3M Make)
- Delinators (3M Make)
- RPM (3M Make)
- Road Markings
- Traffic Barriers
- Medium Markers (3M Make)
- Speed Breaker
- Crash Barriers
- Solar Cateye
- Bus Shelters
- Thermo Plastic Paints

Road Signages & Safety Products:

Cautionary Signs

These are the road signs, which are made to inform the driver about the potential dangers and the hazards on the road. Our Cautionary sign products are long lasting & meet all necessary requirements regarding traffic safety or environmental issues.

Mandatory Signs

We offer Mandatory and Compulsory traffic signs which are used to inform road users of certain laws and regulations to provide safety and free flow of traffic.

Informatory Sign

We supply Informatory signs ready to be placed on the road to provide essential information about directions, destinations, roadside facilities, for the road users.
